Liberals Will Absent Themselves
Until Granted Satisfaction—Weyler
on Recognition of Belligerency—China Is Heard From.

[BY ASSOCIATED PRESS WIRE]
MADRID, May 24.—[By Atlantic Cable.] In the Senate today in reply to a Conservative Senator, who asked why the Liberals were absent, Senor Canovas del Castillo, the Premier, said:
"In the opinion of the government, the matter which the Liberals plead as an excuse for their absence from the Senate is an incident of a purely personal character, which has already been arranged. The government respects the opinion of the Liberal majority, but questions their theory of the incident, and their demands for the resignation of the Minister of Foreign Affairs as contrary to the constitution of Parliament."

"Formerly I governed in the absence of a minority, but under the present circumstances, the responsibility belongs to all parties. It is impossible to face the negotiations now on foot without serious detriment, if we change the foreign ministry."
The Marquis de Peralas, on behalf of the dissident Conservatives, declared that under the circumstances they felt compelled to absent themselves until the Liberals had received satisfaction.
In the Chamber of Deputies, the Premier repeated the statement he had made in the Senate, adding that he regretted the absence of the Liberals, because it prevented Senor Sagasta from defending himself against certain accusations arising out of an erroneous interpretation of some of his speeches. Senor Canovas referred to the bad impression which had been produced in this way at Washington, where, he said, it seemed to be supposed that the sale of Cuba was a possible thing.
"Spain," said Senor Canovas, "is not a nation of merchants, capable of selling its honor."
Senor Francisco Silveira, leader of the dissident Conservatives in the chamber, who quarreled with Senor Canovas in 1891 over the expediency of reform for the municipal abuses in Madrid, accused the Duke of Tetuan of a grave error which could not be righted by a few eloquent words. He said the Foreign Minister ought to expiate his offense by resigning.

"In the course of his speech he described the action of the United States Senate in recognizing the belligerency of Cuba as a great 'iniquity,' and characterized the diplomacy of the government as altogether 'blameworthy,' adding an expression of his doubt as to the intelligence of Senor Canovas in retaining the Duke of Tetuan under the circumstances."
DOESN'T SATISFY.
LONDON, May 25.—A dispatch to the Times from Madrid says that the statements and explanations of the Premier in the Senate and Chamber of Deputies do not tend to break the deadlock, but on the contrary, have strengthened the resolution of the Liberals to absent themselves from the Cortes until granted satisfaction for the affront on Senor Comas by the Duke of Tetuan.

WEYLER'S BLUFF.
He Says Recognition of Belligerency Would Help Spain.
[BY ASSOCIATED PRESS WIRE]
NEW YORK, May 24.—A dispatch to the Journal from Cienfuegos, Cuba, says:
"In an interview with Capt. Gen. Weyler upon his arrival here from Placetas, in reference to Senator Morgan's Cuban resolution, the general said:
"I am not surprised with the action thus far taken, nor shall I be if the House concurs in the Senate resolution and sends it to the President. Your finger on the saddle is evidently bent upon forcing the country into some foreign complications in order to distract attention from the fast approaching internal crisis."
"The few scattering bands of Cuban dynamiters, railroad-wreckers, horse and cattle thieves, plantation-burners and highwaymen now in the field here, who hold no port and possess no seat of civil government, have no right to expect recognition. Such distinction at President McKinley's hands issued in the face of my own proclamation, offi-

cially declaring the greater part of the island to be already pacified. The Consuls here are not a bit alarmed."
"Consul-General Lee's stirring report is only a confirmation of earlier reports which he sent to Mr. Olney. His ground has always been that the Spanish rebellion began in paper money. He showed no indication of being able to crush the insurgents. It is true that he Consul-General made no personal attack on Gen. Weyler, but he was outspoken with regard to the results which Gen. Weyler has achieved."
"The money question grows more pressing. The colonial treasurer has resigned in disgust owing to the troubles arising over the depreciation of the paper money. Today the currency is equivalent to \$12.45 paper. An attempt was made to sell here drafts for \$5000 silver in Spain, payment to be made by the purchasers in paper money. Bids were at about \$80 premium on the hundred. The acceptance of those bids would have meant the retirement of half a million in paper money. The Intendente at first accepted the bids, then refused them as too low and resigned. And now the despised billets fall lower daily, yet the reforms are here, in paper at least. The fact remains that the paper is more depreciated today than at any time since the rebellion began. The Intendente objected to a proposition to quote the billets on the stock exchange and have them accepted at the rate quoted daily."

Venezuela and Mexico Demand Better Treatment for Their Subjects.
[BY ASSOCIATED PRESS WIRE]
NEW YORK, May 24.—A dispatch to the Journal from Havana says:
"In a demand recently made upon Spain through the Venezuelan Consul, President Crocker's government insists that citizens of that republic residing in Cuba shall, in case of arrest upon political charges, be accorded equal privileges with citizens of the United States here, including exemption from trial by military tribunals and assurances of habeas corpus and the right of appeal. Venezuela claims this right under the favored-nation clause in her own constitution. Now Mexico is understood to be pressing Madrid and Havana authorities to have her citizens here accorded the same privileges. Outraged, a Venezuelan, recently arrested as a political suspect, was released on condition that he leave Spanish territory."

"Private advices from Caracas indicate that President Crocker insists to follow suit in case the Washington government should finally recognize the belligerency rights of the Cubans. In deed, it was whispered here tonight that a vessel was formally cleared from Maracaibo some days ago for the rebel port of Banes, in Eastern Cuba, loaded with arms and ammunition for Calixto Garcia's army."

CHINA'S THREAT.
NEW YORK, May 24.—A dispatch to the Journal from Havana says: "China's Havana representative has received instructions from home that in future the lives and property of Chinese residents in Cuba must be respected, otherwise China may concede belligerent rights to Spain's enemies in the Philippines."

Spain Trying to Discredit American Relief Measures.
[BY ASSOCIATED PRESS WIRE]
NEW YORK, May 24.—A dispatch to the Herald from Havana, via Key West, says:
"Every effort is made by the Spanish government to discredit the attempt to relieve American citizens and to confuse the issue. The Union Constitutionalists that the \$50,000 was voted by Congress at the request of American citizens here. Late reports of the Senate speeches, says the paper, indicate that there is a fear in the United States that the American Consuls here will be in danger when it is known that these reports will have thoroughly exposed Gen. CASE OF GUYER AGAINST HANSEN DISPOSED OF.
The Decision of the California Court is Affirmed—Had the Complaintant Won the Government Would Have Had Nothing to Improve.

[BY ASSOCIATED PRESS WIRE]
WASHINGTON, May 24.—[Special Dispatch.] A case settling the ownership of the San Pedro inner harbor was disposed of when the Supreme Court decided that of Guyer vs. Hansen in favor of the defendant, affirming the decision of the California court. In this case the claim of an old grant which carried the title to the whole inner harbor was in controversy. In case Guyer had won, the government would have had nothing to improve, as all the land from the point inside a line run from the point to a spot across the opening of the inner bay would have belonged to private owners. The present owners did not allow the cause to stand alone, but have taken a hand in the fight and helped to win.

In the early part of the phase of the case involving the harbor Attorney-General McKenna was induced by Senator White to put in a brief and so end the contest. The real effect of the decision is that where a patentee of land accepts the patent and survey, he has no recourse, in case of a dispute, to contest, if the boundaries do not accord with the original lines. This will have great effect in all future matters involving later contests of the land court.

ANOTHER ACCOUNT.
WASHINGTON, May 24.—[By Associated Press.] Justice Harlan delivered the Supreme Court's opinion in the case of Anna J. Dominguez de Guyer et al. vs. William Banning. The case involved the ownership of Mormon Island, in the inner bay of San Pedro, Cal., and was appealed from the Supreme Court of California. Dominguez claimed, under a grant from Mexico for ten square leagues, granted in 1810. Banning claimed a patent from the United States dated in 1881. Banning's title was confirmed by the court below, and that opinion was sustained by today's decision. The case was regarded as important because of the government's interest in it.

ROSIN AT REST.
His Ashes Repose on the Bosom of the Father of Waters.
[BY ASSOCIATED PRESS WIRE]
ST. LOUIS, May 24.—The ashes of Rudolph Rosin were cast into the Mississippi River last evening from near the center of the Eads bridge. Rosin had spent most of his life in the vicinity of Cincinnati. About a year ago he visited his birthplace in Northern Germany and while there was taken sick and died. During his illness he prepared a will in which he provided that his body should be cremated and his ashes returned to his Cincinnati relatives and kept by them until May 23, 1897, the anniversary of his birth, and then thrown from the Eads bridge at St. Louis, into the Mississippi River.

Last evening a well-dressed man walked on the bridge from St. Louis. He carried a small black box by a handle. When near the center he stopped, opened the box and emptied what appeared to be a few handfuls of ashes into the river below. Without priest or prayer, all that remained of Rudolph Rosin was thus cast into the great river.

[BY ASSOCIATED PRESS WIRE]
WASHINGTON, May 24.—The resolution appropriating \$50,000 for the relief of American citizens in Cuba, reached the White House at 12:30 o'clock today, after being signed in both houses while they were in open session. The President signed the resolution immediately and will at once communicate with the State Department respecting the adoption of measures of relief in addition to those taken last week when the Consul-General was authorized to draw upon the State Department for \$10,000 for the procurement of immediate supplies.

DISCUSSING THE TARIFF.
WASHINGTON, May 24.—The Republican caucus today emphasized the fact that there is a wide divergence of opinion among the Republican Senators on the rates of duty fixed in the various schedules of the Tariff Bill. The Senators were in caucus nearly four hours. The only official announcement that was made after the caucus adjourned was that it decided to appoint three Senators in addition to the Republican members of the Finance Committee, who were to act as a committee to assist in getting the Tariff Bill through the Senate.

It was generally stated, however, that an agreement had been reached that there should be no set speeches on the bill from the Republican side, except that of Senator Aldrich, which is to be delivered tomorrow. A resolution of memorandum offered by Senator Burrows was agreed to by those present. It sets forth that the sense of those present, there not being a full attendance at the caucus, was that Republican Senators having amendments to offer should present them to the Republican members of the Finance Committee, and if the amendments are approved by the committee they are to be offered in the Senate.

If disapproved, the Senators presenting them are to have the right to submit them to the Republican caucus. The Finance Committee is to hold sessions each evening for the purpose of considering propositions from Republican Senators, and to decide upon the advisability of presenting such propositions in the Senate. The object of this proposition is to prevent the Republicans from dividing upon various schedules which might result in a compromise of the tariff. This arrangement was developed by the debate and the various contentions of the Senators.

In the early part of the caucus, Senator Aldrich was called upon for an explanation of the bill and some of its amendments. During the remarks, Senator Culham called for a statement on the sugar schedule, over which there had been so much controversy. The explanation presented by the Senator would largely exclude the coarse and low grades of sugar, and the fine grades and other points. The protection in the Senate bill was 75 per cent, and equalized the high protection on low grades and high grades. The effect of the House schedule would be to shut out the lower and cheaper grades of sugar, and the system of pound duties presented by the Senate bill being for the purpose of making this equality. The average rate in the Senate bill was 75 per cent, with a differential of 1/4 of 1 cent on refined sugar. Senator Aldrich said that this was an advantage to the sugar refiners as the House bill.

The explanation seemed to cause general satisfaction. At least no one questioned the Senator further. There was some discussion upon the length of time the bill should be under discussion in the Senate. It was suggested that as soon as the opening speeches were made, a vote should be taken toward having a vote on the bill in two weeks. The system of debate on the bill was to be run along for a week, the Senate begin its sessions at 11 o'clock and sit until 5:30 p.m., and have evening sessions from 8 to 11 o'clock.

Debate on various schedules consumed the time of the caucus, a great deal of opposition was developed to the increased tax on beer and the duty on leather. Senators Platt of New York, Hanna of Ohio and Spooner of Wisconsin were especially vigorous in their opposition to the increased tax on beer. It was pointed out that the revenue both from beer and tea by a tax, which would accomplish the same result. Western Senators referred to the wool schedules.

Senator Warren of Wyoming appearing as the spokesman for the wool-growers of the West, said that the duties proposed by the committee were in his judgment inadequate, and he thought there should be some increase on the lines of the amendments proposed by the western Senators. Senator Lodge of Massachusetts spoke against the duty on hides, saying he did not see how it could avoid voting on an amendment which proposed placing hides on the free list. This statement raised a storm among western men, who said that such a method was proposed, they would be compelled to vote for placing certain articles on the free list or for reducing the duty on them. They did not expect that the Democrats would vote with them to increase duties.

The westerners announced that to settle with the eastern men who voted to reduce the duties on their products, they would vote to reduce the duty on articles which their people purchased, and did not produce. It was this state of affairs that brought forth the proposition of Senator Burrows to submit proposed changes to the

NULLIFYING THE NEW TARIFF.

In refusing to accept the retroactive clause of the Dingley Tariff Bill, Congress practically said to the country that the new tariff law shall be enacted mainly for the benefit of the large importers. During the past few months the big importing firms have been rushing into the United States enormous quantities of goods of all descriptions, particularly woolen goods. The wires have been kept busy, and vessels have been chartered at high prices to rush in products before the new tariff law takes effect. The result of such a course is obvious. Its effect is threefold: (1) The government is deprived of the revenue which it needs, and expected to obtain from the increased duties of the Dingley bill. (2) The consuming public has to pay more for everything affected by the bill, the importers fixing the prices according to the new duties. (3) The profits are absorbed by the big importing houses.

Should the Dingley bill not become a law very soon, it is estimated that there will be enough goods in this country, imported under the old law, to supply the population until 1900. This is a serious matter. The law is thus nullified, the new tariff giving no protection to American industries nor revenue to the government.

The responsibility for this condition of affairs lies upon those who have delayed and are still delaying the passage of the bill and who refused to accept the retroactive clause.

Current literature has been added to, if not enriched, by the publication of a book under the "striking" title of "The Fight of the Century." It is not, as the casual reader might suppose, a Populist treatise on the silver question, nor has it to do with the Debs rebellion of 1894. It is simply an account of the mauling match recently "pulled off" at Carson City, Nev. The book is written by George Siler, referee, and Lou M. Houseman, and contains portraits of Corbett, Fitzsimmons, Siler, Dan Stuart, Gov. Sledge of Nevada, and other promoters of the mill, whose names are more or less notorious.

Wholesale grocers of Iowa, who have been caught by the rise in tea, due to the proposed duty of 10 cents per pound, inserted in the tariff bill by the Senate Committee on Finance, have sent a large delegation to Washington to knock out the proposed duty if possible. The task ought to be an easy one. Tea is not produced in this country, and cannot be produced here on a commercial scale. It should therefore be admitted free of duty. The proposed duty is opposed to one of the fundamental principles of the protective system.

Greece declines to negotiate with Edhem Pasha the terms of peace, but refers him to the allied powers, to whose hands the interests of Greece have formally been committed. Under the circumstances, Greece can hardly be blamed for not wanting to have anything more to do with Edhem Pasha. Hellas has monkeyed with the buzz-saw, and knows when she has had enough.

Mr. Penrose, brother of the Senator from Pennsylvania, will not feel very badly because he was not appointed Governor of Arizona. He has a gold mine from which he is getting dividends at the rate of \$2000 a month. At the same time, an income of that size would buy an awful lot of politics.

of its capital to the president. This is about the way with that Oregon bank of which an ex-Governor was president and his son cashier. Make the directors responsible for all loans made to all officers of the bank, over and above their individual holdings of stock, and the president would not be able to borrow any more than anybody else.

The McKinley duty on still wines was 50 cents per gallon. The Gorman-Wilson Tariff reduced it to 30 cents. The Dingley Bill restored the McKinley rate. The Senate Committee on Finance amended the Dingley Bill by restoring the Gorman-Wilson rate of 30 cents per gallon. If the 50-cent rate be reinstated it will be only after a hard fight. This is but one case out of many in which a manifest purpose has been displayed in the Senate committee to do gross injustice to California industries.

An opinion just rendered by the Supreme Court confirms the government's title to the inner harbor at San Pedro, which was placed in controversy by a suit begun some months ago, claiming private ownership for a considerable part of what is now the inner harbor. This clears up what might have proved the only real obstacle to the construction of the harbor for Los Angeles.

The Morgan Cuban resolution has been committed by the House of Representatives to the tender mercies of the Committee on Rules of that body. This action disposes of the matter until the committee sees fit to report back the resolution, which may be in a week, or a month, or not at all.

Acting Governor Miller is catching a severe but merited lot of censure for issuing pardons and undoing the work of the courts. Gov. McCard will be there in a day or two, and then the pardon mill will have to shut down for repairs.

Another colored cadet has been sent to the lieutenant factory at Annapolis. It is to be hoped that he will pay due attention to his studies and turn out a good engineering officer, which is always a good thing to have on board any warship.

Edhem Pasha has made a formal offer to treat with Greece. And really, it is Edhem's turn to treat.

GARNER'S DEFENSE.

He Owned the Cabin but not the Counterfeiting Plant.

Yesterday's proceedings at the United States District Court fully developed the theory of the defense in the Garner case. Although several other witnesses were called, the testimony of Garner himself was the most important in establishing his side of the story.

Garner asserted that he had not occupied his cabin for over a year, and seemed to think that some persons or persons unknown must have taken advantage of his absence to carry on this business of counterfeiting. The defendant freely admitted that he owned a great part of the array of chemicals then on exhibition in the courtroom, but asserted that he was a miner and had done much experimenting with chemicals with the view of ascertaining the best method of extracting gold from the ore.

In his absence, Garner said, some one must have not only made free with his chemicals, but also taken the cabin, but also added to them the full counterfeiting plant discovered by the officers. The dies, some of the chemicals, and the machinery were all used, he had never seen before.

Testimony for the defense was all put in yesterday, and the trial will probably be finished today.

Case Dismissed.

The case of Larkin vs. Dean, a suit brought to enjoin the Street Superintendent from selling land between Fifth and Sixth streets, a block between Main and Spring, for delinquent street assessments, was brought before Judge Wellborn yesterday, and dismissed.

CHAMBER OF COMMERCE.

Comparison of Two Tariff Bills Received from Washington.

Senator Stephen M. White has sent from Washington a bulky volume which contains the comparison between the two bills of the tariff. The bill as it was reported to the Senate a few days ago. This comparison will be kept at the Chamber of Commerce for reference, as copies of it cannot be obtained.

W. L. Dudley, director of affairs at the Tennessee Centennial, has written to Secretary Wiggins that there is not another foot of space to be had at the exposition, which opened May 1.

Fifty inquiries as to space have come from business firms and private individuals, who have wished to send exhibits to Nashville.

Not a Millionaire.

Mrs. Leander Brown of Santa Monica says the report that she has become a millionaire is incorrect. She is but one of several heirs of her father's estate, to which a fortune has come through the production of titles that have been suppressed for many years.

SUCCESSFUL WORK.

THE SOUTHERN CALIFORNIA'S NEW FULLERTON OIL FIELD.

The Prospect Well Yields Daily Sixty Barrels of High-Grade Crude Petroleum.

OTHER WELLS ARE BEING SUNK

CHEAP RATES ACROSS THE CONTINENT FOR ENDEAVORERS.

Ample Opportunity Afforded for Stop-overs in Los Angeles—Orange Shipments are Very Nearly Concluded.

The officials of the Southern California Railway Company think that they will not find the fuel question so far as it affects their road. The expenditures in oil development conducted by the company on its 3000 acres of leased land near Fullerton have resulted very successfully, and it is believed that it will not be very long until the company is being produced as a failure. A careful inspection of the neighborhood convinced Mr. Doherty that the original prospectors had chosen wrongly the place for their wells. He sought out new territory, and by careful study of the surface indications and by drilling a few test wells, he has discovered a rich deposit of oil. The well was sunk 200 feet deeper, and the yield was increased somewhat. The most profitable strata were struck at a depth of 400 feet.

The well is now being pumped, and yields between fifty and sixty barrels of oil a day. Work has not yet been completed on the well, but it is believed that it is possible that even more oil will be produced when the all placed in approved order.

The second well is being dug as rapidly as possible and will probably be completed in about ten days. A third and a fourth well will be dug at once.

No preparations have yet been made for piping the oil to the railway. A pipe line five miles in length would carry the petroleum to tanks on the Southern California line, and which could be drawn off into the oil tanks of the locomotives.

General Manager Nevin said yesterday that within a comparatively short time the company would have all the oil it could use from these new wells of excellent quality for fuel. It is of the highest grade, and is pure and better than any oil ever before used in Southern California. It is of 30 B gravity.

The news of the developments of the new oil field has been received by the engineers and firemen of the road. Some of the locomotives of the company are being run on the new oil, having been changed back from burning coal-burning apparatus recently, as a bluff to bring down the price of oil, which is nearly as successful. With oil-burning apparatus there is no smoke, there are no clinders, and the engine-cab is such a life and with almost nothing to do but to turn on or off the current of oil which is sprayed into the furnace, when the locomotive leaves or enters a station, and the fireman can sit back and let the oil do the work.

To go back to the grime of a coal-burning engine, and to have to shovel coal into the furnace, and to have a sore affliction, and the news that the company will probably soon produce enough oil to have nothing but oil-burning engines is welcome tidings.

SANTA FE TIME CHANGES.

A Readjustment to Fit the Summer Traffic.

The coming of summer has caused the Santa Fe Company to make various changes in its time schedule. The California limited will be withdrawn today, and in its place the overland accommodations, chair cars will be run through between Los Angeles and La Junta, Colo.

Beginning with next Sunday, the Santa Fe overland will leave Los Angeles daily at 9:45 a. m., half an hour earlier than today, and arrive at Chicago at 9:30 p. m., instead of 10, as heretofore. There will be a number of important local changes. The service between Los Angeles and San Bernardino will be doubled on Saturdays and Sundays.

The trains for San Bernardino and Redlands will leave at 7:15 a. m., 9:45 a. m., 11:15 a. m., 1:15 p. m., 3:15 p. m., 5:15 p. m., and 8:10 p. m., and from San Bernardino will leave at 8:30 a. m., 9:45 a. m., 11:15 a. m., and 6 p. m.

San Diego trains will leave at 9 a. m. and 2 p. m., and arrive at 11:15 a. m. and 5 p. m. The Santa Ana accommodations will arrive at 8:50 a. m. and leave at 5:05 p. m.

Redondo Beach trains will leave at 9:45 a. m. and 5:40 p. m., and arrive at 8:30 a. m., 12:40 p. m., and 4:55 p. m. Santa Monica trains will leave at 9:45 a. m. and 5:40 p. m., and arrive at 8 a. m. and 4:55 p. m.

CONVENTION RATES.

Christian Endeavorers Can Cross the Continent Cheaply.

It will be a long time before easterners have another opportunity to visit California at such small cost, as they will have when the annual convention of the Society of Christian Endeavor at San Francisco. The round trip from Chicago will be only \$50, whether to Los Angeles or to San Francisco.

These low rates are not to be confined to members of the Christian Endeavor Society. Anybody who wants to visit California can take advantage of the low rates. The tickets sold by the Santa Fe will, in no instance, be more than \$50, and passengers can get their tickets at each end of the line, each one-way ticket costing \$25 to San Francisco and \$25 to Los Angeles.

The schedule of prices has been announced as follows: From Chicago to San Francisco or Los Angeles, \$25; from Milwaukee, \$26; from St. Louis, \$27; from New Orleans, \$28; from Peoria and Bloomington, \$29; The Games

ALL ALONG THE LINE.

In another column will be found a statement of the old and reliable Los Angeles National Bank. Its assets are over \$2,000,000; deposit account, over \$1,100,000; available cash assets in cash and deposited with other banks, \$491,000. The bank is now just fourteen years old, and has been recognized by its solidity and liberality ever since its organization. It makes every promise that it will keep in the front rank of the financial institutions of California.

Great is the law, and greater is the Supreme Court's application of the law! A litigant loses a valuable piece of land that was stolen from him, and cannot prove his own title because the Assessor at some period in the city's history was an incompetent, blundering ass. The Superior Court decided that the land belonged to the man who owned it, but the wise old owls of the higher court have since then, in a resolution and hunted up reasons for giving the property to the man who annexed it.

The Southern California Railway's operations in the oil field were begun because some of the oil producers were not satisfied with a good thing, and tried to compel the company to buy oil at a figure just below the cost of coal. The success that has attended the operations may encourage other railroads to acquire oil land and produce their own fuel. The increased comfort of railroad traveling resulting from the use of oil will be appreciated by the public, and next improvement may be in the line of a practicable system of sprinkling the road-bed.

Mescal appears to be getting in its deadly work on the Mexican population in the rural districts with unceasing regularity. A fatal stabbing affray at Corona Saturday night, another near Alamitos Sunday afternoon, one at Chino about a week ago and several recent ones on the outskirts of Redlands, are proof of this. In every instance there was a case of the wound up with blood-letting, the modus operandi generally being the insertion of a long-keen-bladed knife in the vitals of one or more of the party, a cheerful way the proud descendants of the Montezumas have of settling a dispute.

With the death of Mrs. Yeldora Bandini Coutts yesterday, a link is broken between the California of today and the California of half a century ago. She was the daughter of Juan Bandini, a man who was great in his day and more powerful and better known than any man on the Pacific Coast. He was progressive and a friend of the Americans, his daughter who died yesterday helped her sisters to see the first American flag ever made in California, and his children married Americans, founding families which are today among the best known in California.

The Council was in a compliant humor yesterday and adopted without winking the plans and estimates of the new school buildings as submitted by the Board of Education. One Councilman acknowledged that he had not seen the reports which were so hastily approved, but as in the short time that the papers were in the hands of the Council it would have been impossible to verify their accuracy, perhaps he was no less ignorant of the details than his colleagues. The entire incident is to be remembered as an illustration of the manner in which the Council proposes to act as the tacit agent of the Board of Education throughout the entire bond proceedings.

CHRISTIAN ENDEAVORS.

Arrangements for Californian Delegates in San Francisco. Space has been reserved in the north gallery of Mechanics' Pavilion, San Francisco for the Californian delegates to the Christian Endeavor convention in July.

This includes a space 50x334 feet, with an annex of 27x100 feet immediately behind the gallery at the front of the building. The annex will be fitted up as a conservatory, and will form a passageway from the reading and waiting rooms to be fitted up in the art gallery, to the California headquarters proper. These will be fitted up to represent the paths and cloisters of an old mission. At the ends large open spaces will be reserved for palms and other tropical plants, and in the center there will be an inclosure of 50x100 feet for the offices of the Golden Gate Union, and other administrative purposes. The remaining space will be divided into two large reception rooms of 50x120 and 50x120 feet. The first will be near the front of the building, and be occupied by the Southern California counties.

All the arches will be of the old mission architecture and arranged with roofs to form an effective background for the floral decorations. The walls will be in white and the ceilings will be formed of streamers of purple and orange bunting. The floors will be covered with burlap and rugs.

Fifty ladies from Los Angeles city and county will be on the Reception Committee. The hotel headquarters will be at the Miral, corner Leavenworth and Geary streets, for the Los Angeles City Union.

Over two thousand south of Tehachapi are expected at the convention. On June 3 a grand rally of the twenty-eight local societies will be held, at one of the large churches. C. S. Mason, president of the city union, will preside. Speakers from abroad will be present.

A large chorus is practicing the convention music every Sunday evening at the Y.M.C.A. Hall. Six carloads of Endeavorers will spend July 3, 4 and 5 in Los Angeles.

LAST CALIFORNIA LIMITED EAST.—Will leave Tuesday morning, May 25. The regular overland express will continue to run daily as heretofore, making the run through to Chicago in less than three and a half days—only three nights out.

MOST EXTRAORDINARY.—All subscribers to The Times, whether old or new, who pay in advance \$5 for one year may have a photograph enlarged to three months life size, and handsomely framed without costing them a cent for the picture or frame.

Cured of Stomach and Kidney Troubles by Dr. Wong Hui-Sit S. Hope St., Los Angeles, Cal.

To the Public—It gives me great pleasure to say that Dr. Wong Hui-Sit's treatment in my case has been most successful. For years I have been troubled with kidney and stomach troubles. I tried various remedies from other physicians, but received no permanent help. Dr. Wong Hui-Sit's treatment has removed all tender spots from these troubles and seems to be permanent in its results. I like Dr. Wong Hui-Sit's idea of herb treatment, cleaning and renovating the system before building it up again. I am certainly pleased to say that he has done a great deal of good to me, and that I have found him to be a well-educated man, unassuming and kind, commanding the respect of all good people. Very respectfully, MISS STELLA HUNTER, 620 Bellevue ave., Los Angeles, Cal., April 30, 1897.

BUSINESS.

FINANCIAL AND COMMERCIAL.

OFFICE OF THE TIMES.
Los Angeles, May 24, 1897.
SAFE DEPOSIT VAULT. Mr. Fay of the Citizens' Bank leaves for Chicago on the first of next month to make arrangements for fitting up a first-class safe deposit vault in the basement of the Stimson Block, to be run in connection with the Citizens' Bank and the Columbia Bank. The building is specially suitable for this purpose, having a large and secure basement, and Mr. Fay thinks there is room for such an institution here, in which opinion Mr. Stimson coincides.

GENERAL BUSINESS TOPICS.
WHY NOT NATURAL GAS? While much attention has been paid to the development of petroleum in and around Los Angeles during the few years, the no less important matter of developing natural gas has been almost entirely neglected. In most of the wells that have been drilled in this neighborhood natural gas has been found in greater or less quantities, and is frequently used for the purpose of running machinery around the wells. It is believed by many that important deposits of natural gas might be tapped in this section of the coast. A systematic effort made in that direction. It is an interesting fact that in one of the eastern oil sections, after wells had been drilled to a depth of about 800 feet, where oil was struck, and continued further to a depth of about 1000 feet, salt water was encountered, as has been done in many cases here, and when some of the borers in this eastern field went down a couple of hundred feet further, and struck an immense flow of natural gas, which is now being utilized. It would be interesting, and might prove profitable, to make a test well in the Los Angeles field to a depth of 2000 feet, or thereabouts, and see what the result would be.

LOCAL PRODUCE MARKET.
Wholesale quotations revised daily.
Los Angeles, May 24, 1897.
Local produce is selling much the same as last week. Business generally is good. Eggs are going at 12½¢. Although butter is getting weaker at San Francisco, a systematic effort made in that direction. It is an interesting fact that in one of the eastern oil sections, after wells had been drilled to a depth of about 800 feet, where oil was struck, and continued further to a depth of about 1000 feet, salt water was encountered, as has been done in many cases here, and when some of the borers in this eastern field went down a couple of hundred feet further, and struck an immense flow of natural gas, which is now being utilized. PASADENA.

TERMINAL'S APPLICATION FOR A FRANCHISE IS DENIED.

Though the Electric Road's Proposition is not Accepted, the City's Streets Will Be Lighted Free of Charge—A Fight at Lamanda Park—News Notes.

PASADENA, May 24.—[Regular Correspondence.] The application of the Terminal Railway for an electric franchise was today formally denied by the Council. This action, however, was not followed by the acceptance of the proposition made by the Electric Road, as had been generally expected. City Attorney Arthur reported it as his opinion that the fulfillment of the proposition could not be made legally binding upon the electric road, and in view of this report the City Trustees took no action with reference to the offer.

Nevertheless the Pasadena and Los Angeles Electric Railway Company will from this day light the streets and public buildings of the city free of charge, and will continue to do so until such time as the Council shall grant a street-railway franchise to some other person or corporation. This statement is made upon the authority of officials, who say that they propose to give to the people of Pasadena substantial evidence that the free-lighting proposition was made in sincerity and good faith. No agreement, express or implied, will be asked from the Council, but the people will be given an opportunity to judge of the practical working of the free-lighting proposition.

The saving to the city, if this offer is carried out, will be approximately \$1000 per month.

COUNCIL PROCEEDINGS.

The City Attorney's report upon the public lighting proposition of the electric road was the first business to come before the Council. Mr. Arthur's statement that in his opinion no contract could be drawn by which the Electric Railway Company would be bound to carry out the lighting proposition, was greeted with applause from the lobby.

T. E. Gibson then addressed the Council, stating that the company which would furnish the Terminal with power could also supply light to the city upon advantageous terms. He presented some elaborate calculations to demonstrate that the city could profitably construct and operate an electric lighting plant. Mr. Gibson said that he could not be responsible for the accuracy of the figures which he gave, as he merely quoted the statements of W. S. Abbot & Co., of Los Angeles, who read by the clerk.

These gentlemen are desirous of furnishing Pasadena with electric light, and they assured the Council that they could be prepared to give "any light at all times, whether at night or during the day. As a further inducement the letter stated that the writers had become the owners of the city's electric light "that would of its own accord light in the dark and immediately extinguish itself as the day dawned."

This statement called forth a laugh from everyone in the Council chamber. A long resolution was then offered ordering that the Terminal franchise be advertised for sale.

The resolution provided that the City of Pasadena should be the owner of the franchise, and that the franchise should be sold to the highest bidder. The resolution was adopted by a vote of 10 to 2. The City of Pasadena is now the owner of the franchise, and the franchise will be sold to the highest bidder. The City of Pasadena is now the owner of the franchise, and the franchise will be sold to the highest bidder.

OTHER BUSINESS TRANSACTED.

A communication was presented from Col. G. G. Green stating that he is the owner of the tract of land lying between the Wooster subdivision and Raymond avenue, and between Green and Vineyard streets; that an alley had been platted but never opened between the two last named streets, and asking that the dedication of the alley be refused. The petition was referred to the City Attorney.

The report of the commissioners on the widening of Lake avenue was presented and read. The assessment of benefits amounted to \$240, and warrants had been issued for the same amount.

Permission to erect signs was granted to sundry petitioners. Dr. F. F. Rowland asked permission to build an addition to his house on South Marano avenue. The prayer was granted.

E. F. Barnett filed a petition to be appointed special policeman, to succeed to the position made vacant by the death of the late James Orr. The request was referred to the City Marshal and the Committee on Police.

SCRAPPED THE HIRED MAN.

Phillip Engel and his hired man had a fight this afternoon at Engel's house in Lamanda Park. It proved indecisive and the men met in the evening in a saloon where hostilities were resumed. The hired man had Engel on the floor and was making a bad business of it when he was interrupted by Deputy Constable Norton, who arrived on the scene and took both men into custody. They were brought to Pasadena and locked up for the night.

Engel has an unsavory reputation. Several years ago he was tried in the charge of killing his brother-in-law. He was acquitted on technical grounds.

PASADENA BREVITIES.

Mr. and Mrs. L. A. Dunn entertained a number of their friends on Saturday last at their home on South Raymond avenue, with a 6 o'clock dinner, followed by cards, the occasion being Mr. Dunn's birthday. SAN DIEGO BREVITIES.

Steamship News Again Stirs Up the San Diegoans.

SAN DIEGO, May 24.—[Regular Correspondence.] Again the hearts of the people of this city are stirred with news that a new steamship line, which is proposed to operate from San Francisco to South American ports, will make this place a port of call. J. S. Kimball & Co. are said to be working this line in the interests of the stockholders of the Santa Fe road.

The line is in the interests of the stockholders of the Santa Fe road, and will not be owned by the company, but chartered. This revives talk that the Pacific Mail, in connection with the Southern Pacific, may be induced to stop at San Diego. Although this steamship news is rather pleasant, the people here have been fooled so often with reports of coming steamship lines that they are not inclined to be over-enthusiastic concerning this latest report. When they see the steamers coming here, they will be more ready to believe in the realization of the long-felt want.

LAND AND TOWN COMPANY.

Receiver C. D. Lanning and Director Frost of the San Diego Land and Town Company, will arrive today or tomorrow to prepare for transferring the affairs of the company from the receiver back to the company again. The transfer will occur about June 1. The assessment of \$400,000 has been almost entirely paid up. This places the company in an excellent financial condition.

SAN DIEGO BREVITIES.

The joint committee of the Common Council is considering the application of the Southern California Company for a Y on Twenty-second street.

Col. G. M. Marble, president of the National Bank of California, Los Angeles, spent Sunday at Coronado.

A half a dozen youngsters tempted by sticks of yellow dynamite found under an empty building at Eighth and A streets. They did not know the danger they were in until some one passing by recognized the sticks as being dynamite. The dynamite was collected and put in a safe place. The police are unable to tell how it came to be under a vacant building.

S. R. Hamilton, proprietor of the Moreno restaurant, has been arrested on the charge of battery, preferred by his wife. He threw the woman out of the restaurant, so she claims.

Salpeter Granger will build a business block at National City, 100x50.

There were light rainstorms here Sunday and Monday.

ORANGE COUNTY.

A STABBING AFFRAY IN THE ALISO CANYON.

An Important Land Law Suit in the Superior Court—Increased Real Estate Sales—Miscellaneous News Notes.

SANTA ANA, May 24.—[Regular Correspondence.] There was a stabbing affair in the Aliso Canyon down toward Laguna about 6 o'clock Sunday evening between two Mexicans that came near sending one of the men into kingdom come. As the story goes Jesus Aguirre and Antonio Danoko had some words over a woman, and the quarrel soon led to blows with the result that Danoko drew a big knife and plunged at Aguirre's side. The knife's point was fortunately turned outward and the wound was inflicted on the under side of the right arm instead of the body, where it was evidently intended to land. Another pass was made at Aguirre's stomach, but the knife's heavy clothes saved his life. The knife slashed through his garments, cutting just through the skin of the abdomen.

Aguirre bled profusely from his wound, and his friends believing that he was dangerously wounded brought him to Santa Ana in a farm wagon, arriving shortly after midnight. He was taken to one of the hotels and a physician called to attend him. He is still under the physician's care, but his wounds are not considered dangerous. As yet no arrests have been made.

IMPORTANT LAW SUIT. The time of the Superior Court was taken up today (Monday) in an important land case that has been dragging through the courts for several years. The case is entitled the Irvine Company vs. William Schmitt, and it is an action brought to quiet title to certain tracts of land near Laguna Beach which has heretofore been considered in the San Joaquin county courts.

The defendant, the Irvine Company, is represented by the plaintiff and Messrs. McElvey and Bowers of this city the defendant, James Irvine, S. H. Finley, L. N. Brock and W. H. W. W. Kraus were the witnesses used by the plaintiff and when Attorney Lamm announced that the plaintiff would rest, the defendant's attorney moved to continue the case until certain papers and other evidence could be obtained from Sacramento. This motion was finally granted by the court, and the case goes over until Monday, May 31.

The defendant's attorneys claim that the new evidence includes some very sensational matter.

A GOOD DAY IN REAL ESTATE.

The number of deeds filed at the County Recorder's office Monday showed an unusual day for real estate.

The largest sale recorded was that of the Lacy Block on North Main street, Santa Ana, which was sold to Walter J. Wren of Los Angeles for the sum of \$20,000.

The block was built ten or twelve years ago by Dr. J. M. Lacy of this city and is one of the best blocks in the city. Mr. Wren stated today that he was buying a number of improvements on the block in the immediate future. Other sales are reported as follows: Milan Williams to D. H. Wren, nine acres near Buena Park, \$50,000; Stanton, Emilio Raeder, twenty acres west of Anaheim, \$100; J. M. More to Mrs. Alvin Barrow, a small block of land in the western portion of Santa Ana, \$309.65; same to same, a lot in Gardner's subdivision of block B, Santa Ana, \$500; same to same, twenty acres west of Orange, \$437.20.

ORANGE COUNTY BREVITIES. Ernest Wood, who was so badly injured at Athletic Park in Santa Ana Sunday afternoon, is still in a very critical condition. His injuries are more serious than at first thought. His face has been horribly disfigured, seven of his teeth being gone, his nose torn loose from his face, his lip putured and his forehead badly bruised. He has regained consciousness, however, and his friends have hopes of his recovery.

There were no services in the Presbyterian Church in Santa Ana Sunday on account of the absence of the pastor, Rev. J. T. Hopkins, who was in Los Angeles in attendance upon the last sad rites of a deceased relative.

Mrs. Jennie Remick has been arrested on a charge of larceny. Mrs. Remick was the wife of M. A. Remick and recently has flattered herself prominently in a suit against her husband for separate maintenance.

Gordon Granger Post at Orange will have charge of the memorial services for Santa Ana and Orange this year. There will be exercises at the cemetery in the afternoon and at Bank Hall in Orange in the evening.

Observing fruit-growers report that the apricot and peach crop of the Santa Ana Valley will be a bumper crop at least up to the average in quantity while the quality promises to be a little better than usual.

Little Edgar O'Connor won the prize at the baby social in Santa Ana last Friday, that was given for the prettiest boy under 1 year. His name could not be obtained at the time the prizes were awarded.

Mrs. H. K. Snow and Mrs. E. D. Buss of Tustin charmingly entertained the English literature class of the Elsie Society at the home of the latter Saturday afternoon. Refreshments were served.

The work of laying new mains for the water system at Anaheim was begun Monday morning. When completed the new system will give Anaheim splendid water service.

Licensed to wed: Allen A. Litten, aged 24, and Anna M. Devenney, aged 23, both residents of Santa Ana.

Born to Mr. and Mrs. Mat Sweetser of Garden Grove Monday, May 24, a son.

SAN PEDRO.

Steamer Eureka, Capt. Parsons, arrived today (Monday) from San Francisco and way, with passengers and merchandise.

REDLANDS.

Preliminary Examination of Francisco Danzel—Notes.

REDLANDS, May 25.—[Regular Correspondence.] The preliminary examination of Francisco Danzel and Panteleon Moreno, charged with assault to commit murder, was begun by Justice District Attorney Brock. Deputy District Attorney Sprecker, who represented the people, was greatly hampered on account of the unwillingness of the witnesses to testify, and nothing new was brought out. Chavez, the wounded Mexican, is rapidly recovering, but was unable to appear in court, so an adjournment was taken in order that his testimony might be secured. The defendants will probably be held to answer.

Parties just returned from Bear Creek, state that someone has been fishing with dynamite in the large pools in which the stream abounds. This is a flagrant violation of the law, and the matter will be brought to the attention of the Fish and Game Warden.

J. Weitzel and C. L. Martin have secured R. E. Major's confectionery business.

The Southern California Power Company has men at work building a dam on the Santa Ana Canon. This force will be materially increased in a few days.

The promenade concert which was given at the Academy of Music, Friday night, for the benefit of H. G. Arbuckle, was very largely attended, up to 12,000 people being estimated. This amount, Mr. Arbuckle, who is now totally blind, has received \$400, which sum was raised by the Odd Fellows.

RIVERSIDE COUNTY.

A FATAL STABBING AFFRAY AT CORONA.

Pablo Alvarez Held to Answer for the Murder of Jose Llevas—Orange Shipments—Mining Locations—Good Shooting by Militia.

RIVERSIDE, May 24.—[Regular Correspondence.] Pablo Alvarez stabbed Jose M. Llevas in a drunken row at Corona Saturday night.

The wounds were artistically sewed up by a harness-maker, who happened to be handy, but the patient died Monday morning. Alvarez was placed under arrest by Constable Robinson after a fierce struggle. He had his preliminary examination before Justice Phillips Monday afternoon, and was held for trial in the Superior Court without bonds.

ORANGE SHIPMENTS.

Following are the orange shipments for the season to date from Riverside:

GOOD SHOOTING.

A picked team from the gun club will shoot against a team from Co. M, on Thursday. The puny boys have been doing some good shooting lately in practice for the contest with San Bernardino and Redlands on Memorial day.

Among the average scores made in practice last week were the following: C. F. Tann, 41; Bloom, 43; Huddleston, 44; H. G. Meacham, 45; E. A. Meacham, 45; Rhoads, 45; Fene, 43.

RIVERSIDE BREVITIES. The work on the wharf and flume of the Temescal Water Company at Elsinore is about completed. The masonry work for the boiler and engine is completed, and the engines and pumps are set in place. The tank for the fuel oil has been set on piles at the side of the wharf about half way between shore and the end of the wharf. A track of light rails will be put in the wharf and a large push car will be run on it to move easily transfer heavy articles from shore to the engine house.

The flume runs underneath the wharf instead of beside it, as was first proposed. The engine and boiler will soon be started and will be run day and night all summer, barring incidents or delays for cleaning out boilers, etc.

A match game of chicken was played at the polo grounds Saturday between teams from the employees of the Orange company and Trust company. The former were victorious by a score of 145 to 10.

The new Nance Block at Perris is nearly completed, and work will be begun on the Leeman Block within a few days.

SAN BERNARDINO COUNTY.

BRYAN WILL NOT REFUSE A CHANCE TO SPEAK.

An Old Water Controversy Revived in the Courts—Javelinas Played a Great Game of Baseball—New Placer Diggings.

SAN BERNARDINO, May 24.—[Regular Correspondence.] Since the defeat of W. J. Bryan for the Presidency last fall Z. B. Stuart has been working to secure a speech from the free-silver standard-bearer in this city, and by watching the various moves made at the East has finally secured a chance for the realization of his wish. As soon as the itinerary of the silver advocate was announced for the Coast, Mr. Stuart opened his batteries of correspondence again, and secured a promise from Mr. Bryan that he would stop here, if agreeable to the Central Committee of the State, who had his tour in charge.

A letter from Hon. W. H. Alvord, chairman of the Democratic Central Committee, announced that he had no objections, provided the Los Angeles committee had none, and as he is to be in that city Tuesday, a committee will meet him there with the Los Angeles committee, and talk over the situation.

The committee will meet on Tuesday, which takes place next Sunday on the Santa Fe, will enable Mr. Bryan to reach this city at 6:30 a.m., and give a short address in the forenoon without interfering with his Los Angeles speech in the least.

BASEBALL GAMES. The midge baseball championship, for players under 13 years of age, came off according to agreement, and resulted in one of the best and most skillful games played on the grounds.

Double-plays were numerous and well executed. The challenging team, the "Tough Lions," made their first run in the fifth, while their opponents the Wiendels, Jr., made their first run in the seventh. At the close of the ninth the game stood 6 to 2, and was only concluded in the twelfth inning, when the Wiendels, Jr., won by a score of 8 to 2.

It should be stated that their opponents ran in three players over the age of 13 years.

The Wiendels and the San Bernardino team played an excellent game Sunday afternoon, which resulted in a victory for the old team by a score of 8 to 2. It is proposed to have the Tribbles from Los Angeles here to meet the Wiendels next Saturday and Sunday, and it is possible the Riverside-Examiner team may be here on Decoration day, May 31, or on the following Sunday.

WATER CASE REVIVED. Papers were filed in the Superior Court Monday afternoon in which William Curtis, the Barton Land and Water Company, W. J. Brodick, receiver for the First National Bank of San Bernardino, and forty-eight others, are the plaintiffs, while the defendants are the Crafton Water Company, William Craig and ten others. For many years the plaintiffs have had the full flow of Mill creek eighteen hours out of every twenty-four, and the defendants, the other six hours, following the ruling of the courts in 1876 in the case of John P. Crafts et al. vs. H. F. Crafts et al. Since then the defendants have been taking the water from the canal three miles below the intake, during this hour needed, but finally encroached on the rights of plaintiffs by moving the place and times of taking water to suit themselves, and this case is to come to trial again, and promises to be a long-fought contest.

Last evening La Primavera Club gave a social at Casa Castellar. Instead of the usual literary programme, an address on public ownership was given by the Rev. R. M. Webster of Pasadena. The presentation of a beautiful desk by the members of Primavera to the society followed, and the evening concluded with music, refreshments and dancing.

The Playhouses

ORPHEUM. There is the gladsome plunkety-plunk of the banjo, the swish of feminine dresses and away-up plantation dancing as new features at this theater this week, which, added to the best turns of last week, afford an exceptionally entertaining program.

The Middletons have a new juvenile sketch which is scarcely so good as the one they first presented, but yet it was of so entertaining a character that last night they were given a half-dozen noisy recalls. The dancing of the pair last night was mighty clever and added greatly toward making their sketch the success it was. Herr Graus and his baboon-donkey circus have worn out their welcome. Two weeks is as much as a community can stand of that sort of a performance, no matter how good it is, but they still are with us and going through their stereotyped performance without a shadow of change.

Fleurette and her fleur-de-lis dancers, a quintet of capably young women, are a good feature of the bill, though not a great one. Mile. Fleurette has talent in her toes, and can kick with the great toe, and the soubrette who assist in her performance do but little more than look pretty and for a finale angle among the chaperons in the front rows with dolls at the end of fish lines.

Marcello and Millay repeat their laughable turn on the horizontal bars and add the usual burlesque wrestling match, which is dull and entertaining.

Edwin Latelle is a musician who plays the saxophone with expert expression, and the honcho with the capacity of a master. He was given a royal reception.

Adie and her leonine trio continue to keep the audience in a state of chills and fever for fear the big fellow will bite her pretty head off or one of the other may take a noisy blow to smite the lady with a swift blow from a powerful paw. It is a performance that may be more appealing than the actual dancing, but it is fascinating to a degree.

Al and Mamie Anderson are old favorites, and they came back last night to a warm welcome. Their songs have a flavor of the South before the war and their dancing is the very essence of old Virginia. No better specimens of buck and wing stepping have been seen in Los Angeles than that given by Al Anderson, and his team mate likewise does a share of the good things.

The Ordway Brothers and Harris and Walters, though not on the bill, went through their specialties and helped to give full measure to the show. With the exception of the last two features the same programme will be given all the week.

LOS ANGELES THEATRE. The ever-popular opera of "Pinocchio" was very creditably given at the Los Angeles Theatre last evening under the auspices of the Queen's Diamond Jubilee Society. The net proceeds of the affair, which was the first of a series of celebrations in honor of Queen Victoria's birthday, will be devoted to the California Children's Home Society. There were few vacant seats in the house, and the audience proved itself as enthusiastic as it was large.

Encores were frequent and hearty, and any allusion to England or the Queen was greeted with cheers and rounds of applause. The cast was as follows: Ralph Racketaw, able seaman.

Robert Dunbar, Capt. Corcoran; Tom E. Rowan, Jr., Sir Joseph Porter; K. C. B., F. R. Sullivan, Dick Deadeye; George A. Dalton, Ben Dixon; Henry Mabin, Brown's Mate; R. S. Anglin, Silent Marine; Will Manning, Tom Tucker, cabin boy.

Josephine, Captain's daughter; Minnie Padgham Conant, Buttercup, a bumboat woman; Minnie Lillie Owens, Hebe; Lillian Scanlan, Sisters, cousins, aunts, sisters, etc.

Mrs. Conant was an exceptionally lovely Josephine, and made a distinct success of her part. Her solos were rendered with wonderful purity and sweetness of tone, and were greeted with enthusiastic encores and loads of beautiful flowers. Mrs. Owens filled the ungrateful role of Buttercup admirably, and received a hearty encore and several huge bunches of flowers at the close of the duet. "Things are Not Always What They Seem." Mr. Rowan filled the part of the Captain very acceptably, and was warmly encored at the close of his solo, "Call Meon to These I Sing." Little Lillian Belcher danced a wonderful hornpipe, and was applauded to the echo and rewarded with a big bunch of flowers.

The choruses, especially the last one in the first act, and the "Farewell" in

Under eminent scientific control.

the last act, were very well sung, and were greeted with appreciative encores.

Immediately after the first act, Hon. Frank G. Finlayson, Chief of the Scottish Thistle Club, appeared before the curtain and made a brief address, stating the occasion of the performance and giving a sketch of the institution to which the net proceeds were to be devoted.

Every reference to the Queen or Her Majesty, in costume by the signal for cheers and thunders of applause, and the audience fairly turned itself loose when the speaker referred to Her Majesty as the greatest Queen the world has ever known. He spoke of the Queen's desire that the charities should be benefited by the celebration in honor of her birthday, and stated that after much deliberation the Children's Home Society had been decided upon as the beneficiary of the present affair; that the institution was non-sectarian, and aimed to save children and place them in homes.

The speech was followed by the dancing of the High Top Ensemble, in costume by George Cline, to music on the bagpipe by Donald McGregor, also in Highland costume. The dance received a hearty encore and a number of recalls.

At the close of the last act, the audience rose and joined with the company in the singing of "God Save the Queen," which was followed by three thundering cheers and a waving of hats and handkerchiefs.

The next attraction at this house will be Rice's musical extravaganza, "Excelsior, Jr.," on Wednesday evening, with that bonnie lady, Sadie Martinot, as the bright particular star. Joe Cawthorn, the famous Dutch comedian, and a number of other clever performers, and a big chorus round out the show, which we are promised is brightness and gaiety itself. The report that this company was not to appear here turned out a canard. The first performance will certainly be given on Wednesday evening.

THE BURBANK. Katie Putnam and her company appear again this week in a comedy entitled "Love Finds a Way." The way found by love in this case is as tortuous as the labyrinth of Crete, but all get there in the end, even the heavy villain, who is given his choice between matrimony and the noose, and is triumphantly hauled off to his doom by a stalwart miner with a rolling gait and a convulsive eye.

Katie Putnam herself is the same jolly scrap of humanity as Gay Howard as she was in the part of Fanchon, although the present role does not give her the same opportunities for either fun or pathos that she used to such good effect in the "Cricket." The play is the modern mixture of melodrama and comedy, in which most of the comedy is supplied by the winsome Katie herself.

Gay Howard is nothing in the insipid heroine who languish and faint under the deadly machinations of the villain. She absolutely refuses to stay dead, but is up and serenely in bicycle knickers and sends things spinning.

H. B. Emery, as Dan Bradley, is a patient to all drunks who make up their minds to reform, and a terror to evil-doers where his daughter is concerned. That erring young woman manages to mix things up pretty thoroughly for the virtuous and maligned hero and the indignant heroine, but turns up just in the nick of time, clad in the black-headed cloak of repentance, to set everything straight.

John O'Hara and Alice Saunders, as the poetic lawyer and the buxom widow, give the audience some hearty laughs, and the miners who form a sort of chorus for the piece do the rest. The plot is thrilling and the acting spirited, and the piece furnishes a good evening's entertainment. One of the greatest attractions of the Burbank under the new regime is the orchestra. Under the mastery leadership of Arnold Krauss, it is doing excellent work and the interludes between the acts are most pleasurable to all music-lovers in the audience. Such an orchestra is a great factor in the success of a theater.

The Greater People's Store—the Rapid Firing Gun of Bargaindom is shelling the high-price forts with the "Sheward Insolvent Stock" at 33 1-3 cents on the dollar.

It is too bad that over 60,000 feet of floor space is so small. It is to be regretted that a force of 300 experienced salespeople and bundle wrappers are unable to handle the scissors and twine fast enough for you.

Owing to the great crowds it was impossible for the advertiser to get anything like trustworthy information so that prices could be published today. Our advertisement Sunday was made up from Sheward's invoice sheets. We had supposed that there were ample quantities of everything advertised, and we regret that some lines did not last all day yesterday.

In order to avoid disappointment we forego the price list.

There will, in addition to the sale of "Sheward's Insolvent Stock," be a great sale of Ladies and Children's Shoes. Goods that came to us much as the Sheward stock has come. Every size, style, quality and width at a little less than 50 cents on the dollar.
